

Palm risponde all'esigenza di arredare le cucine contemporanee, dove spesso il tavolo da pranzo è sostituito da isole e piani snack. Disponibile con base in legno, metallo o con fusto centrale e pistone a gas, lo sgabello è reso confortevole dalla seduta ergonomica realizzata in materiale schiumato e dal poggiapiedi, presente in tutte le varianti.

Palm meets the need to furnish contemporary kitchens, where the dining table is often replaced by islands and snack counters. Available with base in wood, metal, or with central shaft and gas piston, the stool is made comfortable by the ergonomic seat made of foamed material and by the footrest, present in all variants.
