

## Limes

design Sergio Bicego

it — Il letto Limes mantiene l'intelligente funzionalità che caratterizza l'omonimo divano adattata alla zona notte. Un'isola leggera appare sospesa su sezioni rettangolari in metacrilato trasparente di 14 cm. Limes può essere completamente riconfigurato spostando le testiere in metallo lungo tutto il perimetro del materasso. Completamente sfoderabile.

en — The Limes bed maintains the intelligent functionality that characterises the sofa line but has been adapted for a different interior area and function. The lightweight mobile island appears to be floating on its 14cm rectangular transparent legs. It can become something else by simply adjusting the position of the two metal headboards that can be placed anywhere along mattress's entire perimeter. Fully removable covers.

fr — Le lit Limes conserve l'intelligente fonctionnalité qui caractérise le canapé homonyme, adaptée à l'espace nuit. Une île légère apparaît suspendue sur des sections rectangulaires en méthacrylate transparent de 14 cm. Le lit Limes peut être complètement reconfiguré en déplaçant les têtes de lit en métal sur tout le pourtour du matelas. Entièrement déhoussable.

es — La cama Limes mantiene la inteligente funcionalidad que caracteriza el sofá homónimo adaptándola a la zona noche. Una isla ligera suspendida sobre secciones rectangulares de metacrilato transparente de 14 cm. Limes se puede reconfigurar completamente desplazando los cabeceros de metal a lo largo de todo el perímetro del colchón. Completamente desenfundable.
