

Seashell

design by Gino Carollo

Seashell è un connubio tra ispirazione e funzionalità, tra leggerezza e resistenza, un tavolo di grande espressività. Nuovi piani in vetro fuso esaltano ancora di più le linee morbide e sinuose della base, che trae ispirazione dalle forme organiche presenti in natura ed in particolare da quella della conchiglia, donando un effetto cangiante che ricorda la superficie dell'acqua mossa dal vento.

Seashell is a combination of inspiration and functionality, of lightness and resistance, a table of great expressiveness. New annealed glass tops enhance even more the soft and sinuous lines of the base, which draws inspiration from the organic shapes present in nature and in particular from that of the shell, giving an iridescent effect that recalls the surface of the water moved by the wind.
