Pian ali con spessore di 60 mm compongono strutture autoportanti, senza bisogno di fissaggi a parete, con redditi nte da diverse combinazioni di essenze, tinte laccate, finiture metalliche e anche con frontali in ceramica. Possono essere dotate di piedi in metacrilato per ottenere a livellare i vari elementi, creando una sensazione di leggerezza.

60-mm-thick panels form self-supporting structures that do not require wall anchoring, featuring various combinations of woods, lacquers and metal finishes, as well as ceramic front panels. Available with methacrylate feet to support and level the various elements and achieve a feeling of lightness.
