Sentrum side table

Designed by Schmahl + Schnippering

English text

The Sentrum side table follows the principle of simplicity as it has been stripped from all unnecessary elements. What is left is a strong base and geometrical expression with pure functionalities. The S-shaped construction makes the centre of attention and creates two spaces for storage on both sides to enhance the usability of the side table - ideal for magazines and books. Sentrum is designed to integrate and interact with people as a part of their daily life. Let the Sentrum side table get a central spot in your home.

Designed by Schmahl + Schnippering

Maximilian Schmahl and Fabian Schnippering are two talented German designers who studied product design together and found that they share a profound love for decisive details and soft shapes. With a belief that designs are a part of our culture, they create products designed to integrate and interact with people as a natural part of their daily life.

Danish text

Sentrum sidebordet følger princippet om simplicitet. Alle unødvendige elementer er skåret væk i designet og tilbage står et stærkt geometrisk formsprog, hvor funktionaliteten er i centrum. For at forbedre bordets anvendelighed har Sentrum en S-formet konstruktion, hvorved der er skabt to rum til opbevaring på begge sider af bordet. De åbne rum er ideelle til magasiner eller bøger.

Designet af Schmahl + Schnippering

Maximilian Schmahl og Fabian Schnippering er to talentfulde tyske designere, der specialiserer sig i møbler, indretning og designkoncepter. Designerne studerede produktdesign sammen på Bauhaus University Weimar og fandt ud af, at de deler en dyb forkærlighed for visuelle, unikke detaljer og bløde former i deres design.
