English text

With clean lines and a simple expression, the Virka sideboard can be a part of a consistent design language or be a standalone object. The elegant sideboard is designed with sliding doors so it will never take up unnecessary space in your room. The strong geometrical frame elegantly lifts the sideboard above the floor and adds lightness to the design. Inside the Virka sideboard has one adjustable shelf in each side with room to let cables pass out the back making the design both functional and minimalistic.

Designed by MOAAK and Røpke Design

A young Danish design duo. Mark Wedel and Rasmus Røpke specialise in furniture design and combine their skills into functional and clean designs. Both run their own design studio. With the consumer in mind, they strive to create simple design.

Danish text

Med sine rene linjer og enkle udtryk kan Virka skænken let styles med andre designobjekter. Den elegante skænk er designet med skydelåger, så den ikke tager unødvendig plads i rummet. Den stærke geometriske ramme løfter elegant skænken over gulvet og tilføjer designet lethed. Bag lågerne har Virka to justerbare hylder med plads til, at kabler kan passere ud gennem hullerne i bagpladen, hvilket gør designet både funktionelt og minimalistisk.
