

HUNTER tavolo / *table*

design **Andrea Lucatello**

Hunter è un tavolo dal carattere deciso e scultoreo, che si distingue per la sua architettura dinamica e il perfetto gioco di simmetrie. La struttura in metallo è composta da due elementi identici, sagomati con precisione geometrica: uno inferiore, che funge da base e definisce la verticalità del volume, e uno superiore, che si interseca con il primo in un incastro calibrato e visivamente potente, sostenendo con eleganza il piano. Il design grafico e tridimensionale rende il tavolo protagonista dello spazio, perfetto per ambienti contemporanei che richiedono oggetti dal forte impatto estetico ma dal linguaggio raffinato.

Hunter is a table with a bold, sculptural character, defined by dynamic architecture and a flawless interplay of symmetries. Its metal structure consists of two identical elements, precisely shaped: the lower one forms the base and establishes vertical presence, while the upper intersects it in a calibrated, visually striking joint that supports the top with elegance. Its graphic, three-dimensional design makes it a focal point within the space – ideal for contemporary settings that call for objects with a strong visual impact and refined design language.
